

Frequently Asked Questions – Dirt Pass

- Why do I have to fill out registration form?
Answer - We plan on sending out more information on the program via email. Things like new project announcements, volunteer work days, surveys and promotions. It will be our primary form of communication to the members of the Dirt Pass Trails Team.
- Do we have to wear the wristband?
Answer – No, the program is voluntary, but we hope people will proudly wear them as a way to brand themselves as a supporting member of the Dirt Pass Trails Team. Wearing the wristbands will also help promote the program.
- Where does my money go?
Answer – You are choosing to financially supporting the park system, but doing so in a more defined manner because 100% of the Dirt Pass revenue will be solely dedicated to the park's Trail Program. Your money goes directly to fund this new program. It is strictly used to support the new Trails Coordinator position, a full-time trail crew and helps provide professional support to existing volunteer groups. It will also allow us to survey the needs of our users, plan with those users and bring new trail equipment to project sites.
- Does my money stay here at the park I use ?
Answer - All money will be put in a fund and distributed back to trail work at individual parks based on needs. It is meant to benefit the entire trails system.
- Does the Dirt Pass serve as a park pass? Does it get me in the park free?
Answer – No, this is not an access pass. It is simply a voluntary means for trail users to financially support the new trails program, while also marketing trails and trail use to the public. All entrance fees will still apply.
- Why the color of wristbands?
Answer – The color of the wristband will change from year to year.
