ORV Truck & Trailer Parking

Discover some of Alabama's most beautiful and rugged terrain on Buck's Pocket State Park's new ORV trail. The ORV trail was designed to be a slow ride through beech/hardwood forest, paralleling South Sauty Creek.

The trail passes through the backcountry campsite area (under restoration) and then runs towards Morgan's Cove boat ramp where it continues another 2.3 miles.

Along the 6 mile ORV trail, there are many opportunities for scenic views to see some of Northeast Alabama's unique flora and fauna. In addition, there are a few locations to picnic and fish.
