

## A NOTE FROM THE NATURALIST

Welcome to Lake Guntersville State Park. We are thrilled you and your family have decided to join us for our 38th Annual Eagle Awareness Weekends!

This weekend will be filled with lots of chances to see bald eagles in the wild, programs to get you up close and personal experiences, and educational classes to teach you about other aspects of Alabama's rich biodiversity.

If you have any questions, comments, or concerns throughout the weekend, please do not hesitate to let me or any of the park staff know. I hope this weekend brings you closer to nature and you get to experience something new while you are here!

Friday & Saturday - 7 AM to 9 PM

Sunday - 7 AM to 3 PM

WIFI Password: 1800ALAPARK

Check out is at 11 AM

## MEET OUR PRESENTERS

### Alabama 4-H Science School

Our live bird collection includes both diurnal and nocturnal raptors that students can see up close. Students will learn about the adaptations unique to raptors, their role in our ecosystem, and the conservation efforts we can do to help these animals thrive in the wild.

<https://alabama4hcenter.org/4-h-science-school/>

### Wings to Soar

Wings to Soar's mission is to create awareness, about the vital role Birds of prey play in the natural world. Through our interactive outreach programs, we take environmental education to new heights. In our free flying raptor programs, we give our audience a unique opportunity to view Birds of Prey.

<https://www.soarsouth.org/>

### Alabama Wildlife Center

Alabama Wildlife Center's birds of prey program teaches audience members all about raptors and their adaptations for survival. We will review the basics of raptor biology and learn about behavior, training, and conservation.

### Year of Alabama Birding Photography Workshop

*Hosted by Alabama The Beautiful's Beth Cowan Drake*

Join Beth Cowan Drake from Alabama the Beautiful for a photography workshop designed to teach the field techniques of bird photography. From numerous approaches to photographing different species of bird, she will explain how to control the variables to capture the image of a bird, discuss her personal settings for various images she has captured, and review her Lightroom editing technique.

*Located in Dogwood Room - \$35 participation fee*

## EDUCATION CLASSES

Each weekend will offer concurrent sessions focused on the diversity of Alabama. You will spend 35 minutes learning about each of these before rotating to the next topic.

### The Oak of Oak Mountain

### Alabama's Hemlocks

### North America's Tallest Bird - The Whooping Crane

## GUIDED FIELD TRIPS

Sunday will be filled with exploring outside the park. We will have guided tours to 3 eagle nests in Guntersville or you will have a chance to visit Bucks Pocket State Park with a Naturalist.

### Guntersville Sunset Drive Nest

### Claysville School Nest

### Marshall County Park One Nest

### Bucks Pocket State Park
