

DeSoto State Park's Primitive Camping Cabin

The Primitive Camping Cabin is located in the DeSoto State Park Primitive Campground and does NOT have electricity or water. A community water spigot is located near the vaulted toilet. You will be given access to the improved campground's bath house for showers.

The camping cabin sleeps up to 5 people and is outfitted with a bunk bed with an upper twin, a lower full, and a trundle twin bed. There is also a twin daybed. You will need to bring your own linens or sleeping bags. There is a dining table and benches, living area chairs, and rockers on the porch. Campfire ring outside. The cabin is a no smoking/no pet facility.

The primitive area is secured by a padlocked gate; a key to the camping cabin and the Primitive Campground gate will be issued at time of check-in. Turn in the issued key in at the Country Store on check-out; after hours use the key drop box outside the Country Store door.

Check in time is 2:00 PM on the day of arrival and check out time is 11:00 AM the day of departure.

To help us keep the overnight rates low, we ask you to perform a few housekeeping tasks before you leave:

Pack out all you packed in - do not leave any food or equipment

Take all trash with you

Empty any water out of the basin

Sweep out the cabin

Close and lock all windows

Please lock the door behind you

If you built a fire in the campfire ring outside, please douse with water.
