ADDENDUM No. 3
REQUEST FOR QUALIFICATIONS
Master List of Qualified Design Professionals for Park Projects
Issued: August 5, 2022

To All Potential Respondents: This Addendum is issued to modify the previously issued RFQ documents and/or is provided for informational purposes, and is hereby made a part of the RFQ documents.

RFI 1) Can you provide more detailed information or insight to what you are looking for regarding the playground component of this request?

Response: ADCNR is seeking design professionals to design playground areas at various State Parks. The playground specifications may vary by location and will be defined upon the selection of a firm(s). ADCNR is looking for safe and entertaining designs that will enhance the guest experience at our State Parks. Playground design and equipment must adhere to applicable laws, including the ADA and child safety requirements, and conform to playground-related technical standards and best practices.

RFI 2) Items 2 & 3 list firm qualifications and history of past performance/experience. Is this interpreted as a separate section in the submittal that will be included in addition to section F. Relevant projects and section H. Additional information within the SF330 document?

Response: Yes, those items are independent from the SF330 form.

RFI 3) The link for the SF330 document within the RFQ appears to not be working. Can you confirm the SF330 PDF linked on GSA's website suffices?

Response: Confirmed.

RFI 4) Is a screenshot of our supplier information sufficient for the Certificate of Procurement for Professional services?

Response: RESPONSE: You are to complete the [Certification of Procurement of Professional Services](#) form provided on our website. For your convenience, we have posted links to the Required Forms on the Outdoor Alabama website, [Request for Proposals and Qualifications | Outdoor Alabama](#)
